*News and Appreciation from*

# CARETTA RESEARCH PROJECT

## 52 Years of Sea Turtle Conservation

We had an eventful season on Wassaw this year! The turtles kept us busy on the beach depositing a total of 219 nests (217 loggerhead and two loggerhead-Kemp's ridley hybrid). We also had a forest fire, two tropical storms and another strong system come through during the nesting season. We identified at least 90 individual turtles, with 43 new nesters on Wassaw, 40 previously tagged in other seasons, and seven originally tagged on neighboring islands—five from Jekyll, one from Ossabaw, and one from Blackbeard NWR. Among the returning turtles was Mare, a special candidate from our Adopt-A-Turtle program. First tagged on Wassaw in 1995, this was her 14th nesting season, and she has now deposited 57 nests, producing over 5,000 hatchlings! A huge thank you to our 79 dedicated volunteers, whose hard work helped protect more than 15,800 eggs and led to the successful release of around 14,470 hatchlings this summer!

### Participate in 2025!

Early registration to volunteer with the CRP next summer will open from Dec 11th-18th, 2024. Regular registration will open on Thursday, Jan 2nd, 2025. Please refer to our Facebook page or website for further information.

**Please EMAIL** (WassawCRP@aol.com) to reserve your spot on Wassaw and help study and protect loggerhead sea turtles!

# BACKGROUND

## Our Mission

*It is the mission of the Caretta Research Project to ensure the long-term protection and full recovery of the Northwest Atlantic loggerhead population and the ecological roles that it plays through research, conservation and education.*

## Brief History

Stimulated by a noticeable decline in sea turtle populations, a trilateral collaboration between the Savannah Science Museum (Jerry Williamson), Wassaw Island Trust (Charlie Milmine, also with Museum), and U.S. Fish and Wildlife Service founded the Caretta Research Project (CRP) in 1972. Starting in 1973, CRP began monitoring the loggerhead sea turtle population nesting on Wassaw Island by marking individuals. Shortly thereafter, rigorous nest protection procedures were implemented to maximize hatchling production and bolster the population into the future.

Education and public participation have been at the heart of CRP from its origin. CRP established one of the nation's first "eco-vacations" available to the public. For 52 years, participants have traveled to Wassaw NWR to help patrol the beach in search of nesting turtles and protect their vulnerable turn, CRP strives to foster unique experiences that empower participants with knowledge and experiences that allow them to become ambassadors for the plight of the world's sea turtles.

## Major Accomplishments Since 1973

- Helped produce a significant increase in loggerhead nesting on Wassaw National Wildlife Refuge.
- Marked and studied 2,162 individual turtles throughout their reproductive lives.
- Protected and monitored 6,285 nests, leading to the successful release of 433,195 hatchlings.
- Involved more than 3,750 people from all 50 states and 6 different countries in hands-on sea turtle research and conservation.
- Provided data, support, and infrastructure for conducting collaborative scientific research on sea turtles, leading to the production of 60+ scientific publications and 30+ research presentations.
- Trained 31 interns that have subsequently pursued careers in biology, environmental science, and education.
- Connected more than 450 people with the lives of nesting sea turtles through the Adopt-A-Turtle program.

**Caretta Research Project operates as a 501(c)3 non-profit organization under Savannah Science Museum, Inc.**

**Thank you to our Founders, Past Staff and Board Members, and Current Partners!**

*The following organizations currently help Caretta Research Project pursue its mission:*

US Fish & Wildlife Service

Georgia DNR & Georgia Sea Turtle Cooperative

The Nature Conservancy

Wassaw Island Trust, LLC

Brewer Marketing Group

Your Wedding Film *by* David Troth Wright

Ms. Mallory Adventures

University of Georgia Marine Extension & Sea Grant

One Hundred Miles

Clean Coast

Sea Turtle Conservancy

Kennesaw State University

# 2024 RESEARCH HIGHLIGHTS

## Warnell School of Forestry and Natural Sciences - University of Georgia

We continue to collaborate with and collect samples for Dr. Brian Shamblin with UGA's Warnell School of Forestry for his long-term database and research on Loggerhead sea turtle genetics for the North Atlantic Recovery Unit. He has mapped thousands of reproductive females along the Atlantic coast over the past two decades, however, we still know very little about the male loggerhead population. This year we began working with him on a pilot study to identify paternity and map out individual male genomes through samples collected from hatchlings. This research is critical for developing recovery and conservation management plans for loggerhead sea turtles. For more information please visit Dr. Shamblin's Website or Facebook page.

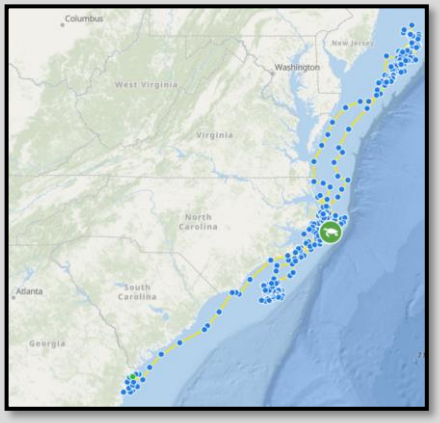
Warnell School of Forestry & Natural Resources
UNIVERSITY OF GEORGIA

## Satellite Tagged Turtles

Caroline and Buffett were both fitted with satellite tags in June of 2023. Caroline's tag has since stopped transmitting, but we're hoping to see her on Wassaw in the summer of 2025! Buffett is still quite active (pictured below). Click each of their names to see their movements on the Sea Turtle Conservancy website or find them on the OCEARCH shark tracking app! If you are interested in sponsoring a satellite tag for one of our sea turtles, please reach out!

OCEARCH

SEA TURTLE CONSERVANCY



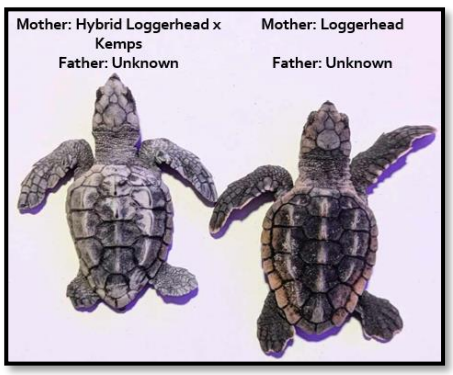
## Archie Carr Center for Sea Turtle Research - University of Florida

We are thrilled to be adding to our long-term collaborative research with Hannah Vander Zanden and the Archie Carr Center for Sea Turtle Research at UF! Dr. Vander Zanden received a grant from the National Science Foundation to study sea turtle breeding patterns, using new approaches to explain how sea turtles get their energy during breeding periods. Two possible explanations are capital breeding, where energy is stored ahead of time, and income breeding, where energy is gained during the breeding period. This information will be immensely beneficial to understanding how sea turtles respond to changing environmental conditions and will contribute to conservation efforts.

ARCHIE CARR CENTER FOR SEA TURTLE RESEARCH
UNIVERSITY OF FLORIDA

## Hybrid Nesting on Wassaw

Our hybrid turtle, Miles, was also back on Wassaw this year (pictured below left)! Miles was first seen on Wassaw in 2018 by our intern, Chelsea Miles, who recognized there was something a bit different about her! Thanks to our genetic collaboration with Dr. Brian Shamblin at the University of Georgia, we know she is a Loggerhead (father) x Kemp's ridley (mother) hybrid! She came back to nest on Wassaw during the 2020, 2022 and 2024 seasons. Since 2018, she has deposited a total of 12 nests containing 1,425 eggs, ultimately producing 783 hatchlings. This year we saw her lay two nests and were fortunate enough to see some of her hatchlings during nest inventory!



# 2024 HIGHLIGHTS

Lightning struck Wassaw and started a wildfire on July 13th. A total of 270 acres burned over the following week, while some areas continued to smolder for nearly two weeks. We want to extend a huge thank you to the USFWS **Savannah Coastal Refuges Complex** Fire Crew, Adam McCullough, Galen Livingston, and Adam Ells, and Bradley Brown and Adam Boudreau with the Wassaw Island LLC for monitoring the fire and working tirelessly to ensure the safety of the island and all of us with Caretta! We were very fortunate to be able to continue surveying the beach for nesting females and hatchlings while conducting our first week of nest excavations. Thank you to everyone who reached out to ask about CRP staff, volunteers and turtles, we appreciate your concern and support! We were also very grateful to have an unlimited supply of ice for the Wassaw cabins for two weeks (if you know you know!) The island is already recovering with beautiful greenery post fire.

## CRP Presentations Available!

We are always looking for new groups to spread the word about CRP! We would love to come to classrooms or civic group meetings and talk about Georgia's sea turtles and the CRP. Please contact us if you are interested!

## New Exhibit Featuring the Caretta Research Project at the Tybee Island Marine Science Center

The Tybee Island Marine Science Center is celebrating the opening of its newest educational exhibit, *Five Sea Turtles of Georgia*. The exhibit represents not only the biodiversity of the Georgia barrier islands, but also the hard work of researchers along the coast. The Caretta Research Project was one of the sponsors of the exhibit, and is highlighted to inspire future scientists through interactive displays of sea turtle nesting and research. Visitors learn how to identify species of sea turtles and how to take action on threats and conservation for sea turtle populations. Caroline, our satellite tagged turtle, is featured in the display along with her genetic family tree, revealed by Dr. Brian Shamblin's work. Special thanks to the TIMSC Staff and artist, Joy Davis, for their incredible work on this exhibit! The exhibit will officially opened to the public on Friday, November 1st.

# ANNUAL CELEBRATION & FUNDRAISER

## Celebrating 52 years of Sea Turtle Conservation on Wassaw National Wildlife Refuge

The CRP's annual fundraiser, ***A Night on the River,*** was held on April 25th under clear skies at beautiful Beaulieu! Over 400 people joined the staff and Board members to celebrate the project's achievements and support future conservation efforts. The party was a tremendous success, and CRP's staff, Board and Fundraising Committee extend our deepest appreciation to everyone that made this event possible! Thanks so very much to : The Beaulieu Martin Family for hosting at this stunning venue, Chip Staley for providing wonderful music, Big Bon Bodega, The Red Taco Truck and Savannah Distributing for the delicious food and drinks, and Royal Restrooms, Stage Front and EventWorks for setting the perfect atmosphere. We are also so grateful to the sponsors, auction donors, and volunteers who generously donated time, money, effort and awesome auction items to support CRP!

Check out photos from the event by Savannah Magazine here! Seen | Savannah Magazine!

## Thank you to our generous auction donors!

Adventure Tours in Motion, Lisa Barksdale Photography, Carrie Bazemore, Dr. Robert Beard, Bogey's Sports Bar and Mini Grill, Britt's Funky Stitch, Bull River Marina, Betsy Cain, Dawn Cordo, Hillary Dunn, Bill Eswine, LaTrelle Ferrelle, Fit Gym Savannah, Found Jewelry, J. Paige, Joshua Gary Metalworks, Georgia Eye Institute, Ghost Coast Distillery, Glow Medical Spa, Caroline Guenthner, HullSpeed Designs, Kelly and Company, Marcus Kenney, Live By The Tides, Stayce Koegler Photography, Naudain Machen, Mandy+Ally, Mermaid Cottages, Patti and Henry Monsees, Moss and Vine, Bellamy Murphy, New Arts Ensembles, Bernard Nolan, Jennifer Nolan, North Beach Bar and Grill, North Beach Rentals, Tessa Parker, Patagonia, Barbara and Larry Perlis, Plant Riverside District, Dr. and Mrs. Michael Poole, Randall's Beverage Center, RenewalMD, Repeal33, Cathy Sakas, Saltwater and Seaweed, Savannah Bee Company, Savannah Canoe and Kayak, Savannah Dental, Savannah Distributing Company, Inc., Kurtis Schumm, Siete Wines, Silver Dream Charters, Bryan Stovall Photography, June Stratton, Subtropical Naturalist, Summer House, Tall Tides Charters, The Historic Savannah Theater, The Lodge at Little St. Simons Island, Tides Out Oystershell Designs, Tybee Golf Carts, Tybee Light Station and Museum, Tybee Marine Science Center, Winslett Watson, Ruth Weimar, Scott Whitten Designs, Wesley Hodges Fly Fishing, Whip Savannah, Wilderness Southeast

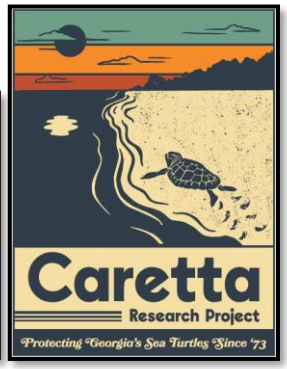
Thanks so much to our raffle donors: Bote for donating an awesome stand-up paddle board and Dr.Robert Beard for donating a bottle of 1989 Chateau Haut-Brion wine!

**Please Save-The-Date!**
Our next fundraiser will be held on Thursday, April 10, 2025 at The Eastern Wharf!

# GET INVOLVED

**Here are ways to get involved:**

- **Participate in CRP** and get hands-on experience protecting sea turtles
- **Make an individual donation**
- **Make a corporate matching gift**
- **Organize an Honorarium or Memorial** to remember a special person in your life
- **Join *Captains for Caretta* -** Use your boat to help transport people and supplies to and from Wassaw NWR each summer
- **Attend and/or Sponsor CRP's Annual Fundraiser**
- **Adopt-A-Turtle for your classroom, loved one, or yourself**
- **Donate through our Amazon Wish List**
- **Shop the CRP Store**



### Teens4Turtles!

We continue to work with the upper school students at Savannah Country Day School and St. Andrew's School for our second year of the Teens4Turtles Program. Upper school students learn about important sea turtle conservation issues and give presentations to the lower school students . Last year we also went on a field trip to participate in a beach clean up on Tybee Island!

Photos by Ben Peterson

### Adopt a Turtle!

Visit our website to order an adopt-a-turtle kit for yourself or a turtle enthusiast in your life! All proceeds from adoptions support our genetic research with Dr. Brian Shamblin at UGA! CRP's Adopt-A-Turtle Kit is a wonderful gift idea for birthdays, anniversaries, Christmas and other special occasions. Pick from a list of turtles that have faithfully nested on Wassaw Island during previous seasons. Kit includes a list of adoptable turtles, CRP Sticker, Sea Turtle Ornament, and a photo of a nesting Loggerhead. Once you choose a turtle, you will receive the nesting history of your adoptee and an adoption certificate. Then follow us on FB and IG to see if your adoptee returns during any nesting season!

**Caretta Research Project is a public non-profit charity that does not receive funding from the state or federal government.**

**All research, conservation, and education efforts depend on generous contributions of resources from people like you.**

### New: CRP Amazon Wish List

As a non-profit, we rely heavily on donations to keep our project running smoothly. Island life requires us to be self sufficient and bring all supplies for the field season out in advance. Our volunteers do an amazing job of helping us keep our cabins, vehicles, and equipment clean, but coastal conditions are not always kind to our equipment and supplies. If you would like to support us during field season, we have curated an Amazon Wishlist of items that are necessary for our sea turtle conservation work on Wassaw National Wildlife Refuge. Thank you for your support!

Young, Cristina Zarate-Byers

We are so grateful to the following local organizations for coming up with such fun and inventive fundraising events to help fund CRP! MANY thanks go out to the following organizations:

Leopold's Ice Cream for choosing to support CRP through Ice Cream sales! Their team had a dunking booth to raise money for CRP during their 100th birthday celebration!

St. Andrew's Kindergarten class for choosing CRP as their designated charity for their Annual Lemonade Sale again this year! We also re thrilled the students are starting to learn about sea turtle conservation so early!

ST. ANDREW'S AN INDEPENDENT SCHOOL

Southeast Paddle Sports and Sea Kayak Georgia for hosting the Autumn Marsh Challenge on Tybee Island, and for choosing CRP to receive a portion of the registration fees and proceeds!

SEA KAYAK GEORGIA

SOUTHEAST PADDLE SPORTS

Hannah Bonvechio for supporting CRP for many years through her Earth Inspired Kids program! This year she recycled aluminum cans and donated to CRP in honor of her 17th birthday!
